

Skill Connect Assessments

Oral Instructions

The following directions are to be read to the students by the proctor just before the test is administered:

Each test question will provide instructions on how to answer the question. After you respond to each test question, click either the Next button, the number of the next question or the Save without submitting button to move forward. To skip a question, click the Next button or the next question number. If at any time you are unsure of what button to click or how to use the testing system click the Instructions button for an interactive demo.

Do not click the “Submit All and Finish” button until you have completed the entire assessment, as it will end your test session.

Before you submit your final assessment answers, you have the option of going back to change your answers. You can do this by clicking the Previous button or the number of the question you wish to return to. Once you have completed all questions and are happy with your answers, you need to click the button “Submit all and finish”. Once you click that button the test will end and a score will be given. You will not be allowed to go back to change answers.

It is important that you do your best to answer every question based on what you know as any un-answered questions will be marked incorrect.

When you have completed the entire test, you may leave the room or stay in your seat and do something that will not disturb the people who are still taking the test. If you have any questions, please raise your hand.

You may sign-on and begin the test.

Thank you.
